NOTICE OF JOB AVAILABILITY

TITLE: Assistant Professor

DUTIES: Duties include extension services and research addressing technical aspects of seafood and aquaculture product safety, quality and nutrition in both domestic and international commerce, as well as stakeholder interests in commerce and regulation from production and processing through food service and retail sectors. The faculty member is expected to be actively engaged in developing best management practices (including being an active participant in developing and rolling out an aquaculture HACCP program) for finfish and shellfish aquaculture in Florida. The faculty member interacts with and provides leadership for FSG extension agents who work in coastal communities around the state. The intent is to maintain the productivity and reputation of the established seafood technology program currently shared by FSHN and FSG, working cooperatively across departments, universities and related programs locally, nationally, and internationally. The common link is seafood commerce and consumption in Florida. Tenure will accrue in FSHN.

The successful candidate will participate actively in undergraduate and graduate education by chairing and serving on graduate committees, supervising thesis, dissertation and undergraduate research, and publishing research results with students. Faculty are encouraged to participate in professional development activities related to teaching and advising and may teach courses and seminars. The faculty member will actively seek contract and grant funding to support his/her program. The faculty member will engage in Extension activities in his or her program area related to aquaculture, safety and quality.

Because of the IFAS land-grant mission, all faculty are expected to be supportive of and engaged in all three mission areas—Research, Teaching and Extension—regardless of the assignment split specified in the position description.

REQUIREMENTS: Ph.D. (foreign equivalent acceptable) in Food Science and Technology with a focus on seafood or a closely related discipline.

SALARY: \$90,000.00/year

HOURS: M-F, 40hrs/wk., 9am-5pm.
